GIVE UP HOPE OF SAVING MEN

Score of Miners Imprisoned Since Wednesday Morning

RESCUE STOPPED BY FEAR OF EXPLOSION

They Had Reached Within 150 Feet of Doomed Men

Steuernville, O., Oct. 30.—After battling their way to within 150 feet of where twenty miners have been imprisoned since yesterday morning, rescue workers were ordered out of the Y and O mine at Amsterdam, O., at 6 o'clock this morning by mine officials and state mine inspectors, who feared an explosion might occur, according to word received here. Hope has been abandoned that the miners are alive.

MUMMIES FOUND IN STEAM-HEATED CAVE

They Were Discovered in an Island of the Aleutian Chain.

Peculiar in their way were 13 mummies found a while ago in one of the Aleutian chain. They were wrapped in skins and nets; but the remarkable point about them was that the cavern which served them as a burial vault was steam heated. In coldest winter weather it was kept warm by volcanic fires.

Eleven of these 13 mummies are now in the National Museum at Washington. They are completely desiccated. It is supposed that the ancestors of the present-day Aleuts mummified their dead, not for any religious reason, as did the Egyptians of old, but because they did not want to part with them. Their method was to wrap their deceased relatives in the skins and intestinal membranes of sea mammals, place them in a squatting attitude on wooden trays and hang them up in dry caves.

Many of the mummies that have been found are undoubtedly very ancient; but of the origin and early history of the Aleuts nothing whatever is known. Some authorities are of the opinion that they came from Japan. At the present time they are much mixed, racially speaking.

They spoke the Russian language at the time when, in 1867, the Aleutian islands passed, with Alaska, into the possession of the United States. Then, until 1884, they were left to themselves and governed themselves. They have now forgotten the Russian tongue, and are becoming Americanized. Most of them live in clean wooden houses and wear American clothes. The women weave wonderful fabrics of grass, so finely plaited as to resemble silk.—Philadelphia Public Ledger.

Try Making Your Own Cough Remedy

You can save about \$2, and have a better remedy made long. Easily done.

If you combined the curative properties of every known "ready-made" cough remedy, you probably could not get as much real curative power as there is in this simple home-made cough syrup, which is easily prepared in a few minutes.

Get from any druggist 2 1/2 ounces of Pinex, pour it into a pint bottle and fill the bottle with syrup, using either plain granulated sugar syrup, clarified molasses, honey, or corn syrup, as desired. The result is a full pint of really better cough syrup than you could buy ready-made for three times the money. Tastes pleasant and never spoils.

This Pinex and Syrup preparation gets right at the cause of a cough and gives almost immediate relief. It loosens the phlegm, stops the nasty throat tickle and heals the sore, irritated membranes so gently and easily that it is really astonishing.

A day's use will usually overcome the ordinary coughs and colds, croup, hoarseness and bronchial asthma, there is nothing better. Pinex is a most valuable concentrated compound of genuine Norway pine extract, and has been used for generations to break up severe coughs. To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex with full directions, and don't accept anything else. Guaranteed to give absolute satisfaction or money promptly refunded. FINE ADDRESSES GIVEN

At 10th Annual Dinner of the Windsor County Y. M. C. A.

White River Junction, Oct. 30.—The 10th annual dinner of the Windsor County Young Men's Christian association was held at the Woodstock inn, Woodstock, Tuesday evening, Oct. 28.

The program was as follows: Presiding officer, F. Thomas Kidder, M. D., Woodstock, chairman Windsor County Y. M. C. A. committee; invocation, Rev. William J. Ballou, Ludlow; toastmaster, Leon S. Gay, Cavendish.

Mr. Gay in a very happy manner introduced each speaker of the evening and pleased the large audience by the able and efficient manner in which he acted as toastmaster.

The first speaker was Judge A. G. Whitham, whose topic was "Greeting from County Committee." The judge spoke of the work which had been accomplished by the

Windsor County Y. M. C. A. and after his remarks those present were enlightened upon the work accomplished. He spoke of the Y. M. C. A. but upon the state fair ground and the splendid work which was done during the fair week in caring for the comfort of those who attended the fair. The judge then spoke of the marvelous work that was done at the Billings camp this summer for the boys and girls. In all that he said he certainly proved that the association had justified its existence.

The next speaker was Edward W. Miller, his topic was, "A Parent's Impression of Camp Billings." He spoke of the good accomplished by the camp upon his own boy. How it had developed him physically; in a word, it had made him a manly boy. He felt if it could do this for his boy he knew that it could do the same thing for other boys.

The next speaker was E. N. Huntress of Boston, the New England director of United War Work. His topic was, "The Y. M. C. A. and the War." After listening to his eloquent words no one could go away and say that the Y. M. C. A. had not done a work which no other organization could do. The things accomplished by the great organization will go down in the history of the war as a great and gigantic accomplishment for the help and comfort of the dough boy.

The next address was given by Ethan T. Colton of New York City, international secretary Y. M. C. A., his topic being, "The Salvation of the World's Unrest." He read from an article written by E. S. Martin, editor of Life, which appeared in the New York Evening Post. The title of this article was, "Religion at the Peace Conference." Mr. Colton made it very emphatic that the salvation of the world's unrest could only be brought about by the religion of Jesus Christ.

There were gathered from over the county some over 100 people and every one seemed to feel that the meeting had been a very profitable one.

National Legislation of the Meat Packing Industry

1. Will not increase the amount of meat you can buy for a dollar.
2. Will not raise more animals.
3. Will not produce more meat.
4. Will not stop fluctuations in live-stock receipts or prices.
5. Will not increase the output of the packing houses.
6. Will not prevent strikes.
7. Will not reduce transportation charges.
8. Will not reduce the retailer's cost of doing business.
9. Will not increase the demand for the cheaper cuts of meat.
10. Will not lessen the consumers' demand for expensive delivery and credit service.
11. Can not at the same time raise prices paid farmers for live stock, and lower prices paid by consumers for meat.

But the slowing up of efficiency due to cumbersome governmental routine will have the effect of increasing the manufacturing charges between the cost of live stock and the cost of meats, thus forcing lower live-stock prices or higher meat prices.

The packing industry as now conducted, is characterized by keen competition, highest efficiency, and unusually low profits.
